

Sienna and Millie's tree from last year has grown a lot.

Chaz's tree has grown too.

# Tree Planting

By Beau Johnson

To learn about trees and the environment we went to Nokenena Brook to plant trees. Firstly, we had to listen to Mrs P and Mrs S explain what we had to do to plant the trees. Then we were given our equipment which was a shovel, gloves and buckets. Once we were all set we walked down to the trees, luckily for us they had already dug all the holes for each tree. We started planting each tree carefully making sure we didn't break the roots and giving them plenty of water and mulch to make sure they would grow. I felt really happy and loved going out to plant the trees.
