## **RATIONALE**

One of the key roles of Catholic schools is to form young people committed to the love, compassion and justice of the Gospel of Jesus Christ. Catholic schools foster a Christian attitude in society and encourage the development of the kind of world envisaged by Christ (Mandate paragraph 6, 22).<sup>1</sup>

Christian Service Learning in Catholic schools enables students to grow from a Catholic faith perspective as people of service and justice. The Catholic school challenges students to grow in their understanding that faith is not just a personal response to God’s love but a communal response to love one another as Jesus taught in order ‘to make the world a better place for all’, (Mandate paragraph 24).

## **PRINCIPLES**

1. Christian Service Learning provides students with opportunities to acquire the knowledge and understandings of love, compassion, justice and service as articulated in the Gospels and to apply their knowledge and skills to real situations in society.
2. Christian Service Learning challenges students in developmentally appropriate ways to think and act in ways that reflect values that are consistent with the Gospel.
3. Catholic schools support and challenge students to explore and reflect on justice issues as part of an integrated and articulated school plan which actively seeks to promote justice and has a commitment to the common good.
4. Christian Service Learning provides students with the experience of ‘service’ as a way of learning and living that permeates all aspects of life rather than an activity that is isolated from the rest of their lives.

5. Students understand the principles of Catholic social teaching and apply them to their own Christian Service Learning experiences.
6. Students develop a deep understanding of the meaning, practice and value of 'service' from a Catholic Christian faith perspective.
7. Preparation and reflection are essential elements in Christian Service Learning.

## **PROCEDURES**
